LinksCore Changes

Customer Search Improvements - Search by Name and Phone/Address/Email

We've re-evaluated how to search for people in Links and there is now a limit of 500 results to be shown at one time in a search to improve performance. A message will be displayed to inform you that there is a 500-record limit set in the search results under the 'Search' button.

Additionally, we've added additional filters on how to search for customers such as addresses, emails, phone numbers, etc. To clear the filters, you can click on the 'Clear Filter' button found on the right-hand side of the search inputs.

The screenshot shows the 'Search for People' window. At the top is a table with columns: Id, Name, DOB, Home Phone, Mobile Phone, Work Phone, Address, and Email Address. Below the table are search filters for Name, Phone, Address, and Email Address. There are also checkboxes for roles like All, Staff, Member, Student, POS Customer, Prospects, Visit Pass, and Responsible Person. A 'Clear Filter' button is highlighted with a red box. A note indicates '* Max 500 records displayed'.

Id	Name	DOB	Home Phone	Mobile Phone	Work Phone	Address	Email Address

Admin Changes

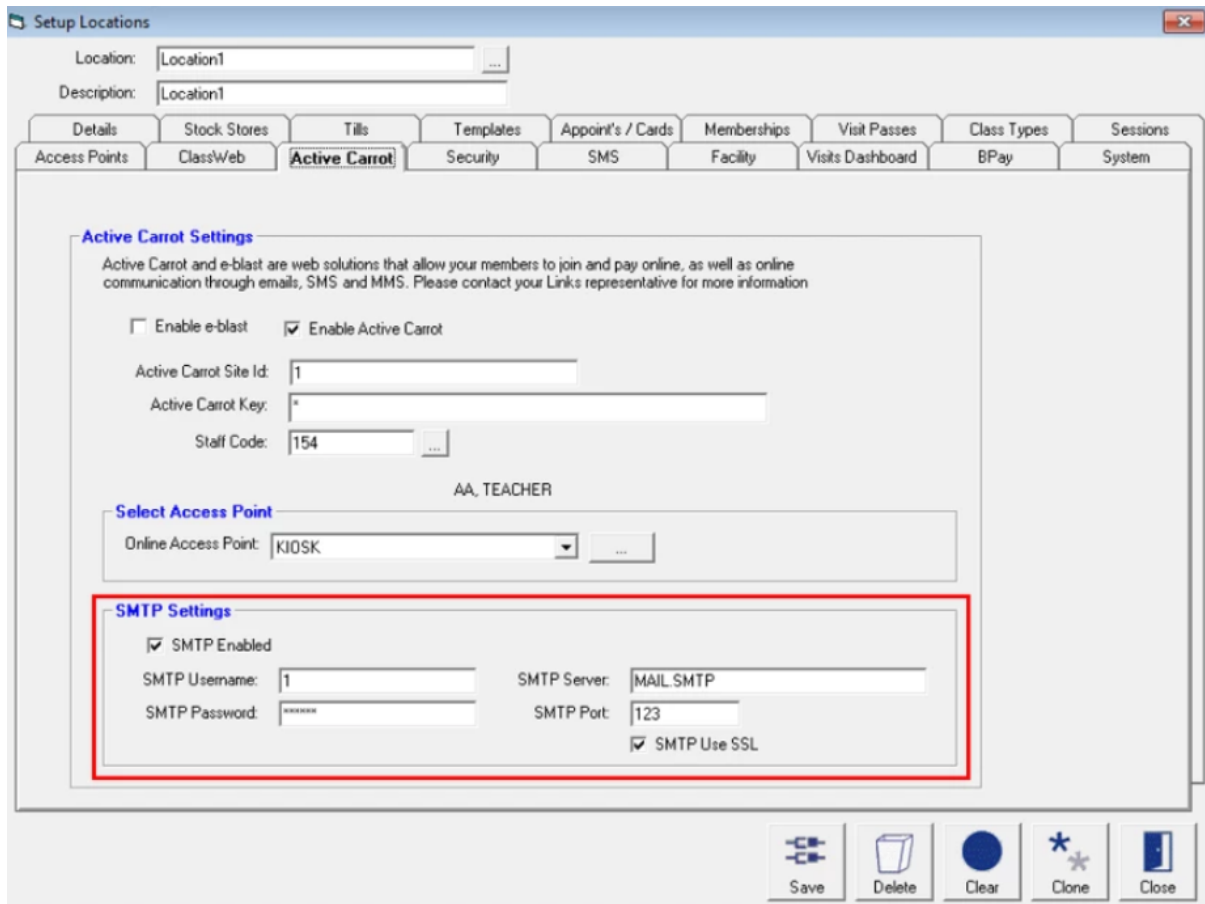

Added SMTP (Mail Server) settings for ActiveCarrot

A new configuration option has been added in Links configure SMTP settings used for ActiveCarrot.

This will be used in upcoming development to support ActiveCarrot emailing capabilities and improvements.

For multi-location Clients, this can be found in Admin> Site> Setup Locations> Active Carrot.

For single-site Clients, this can be found in Admin> Site> Other Site Parameters> Active Carrot.

The screenshot shows the 'Setup Locations' window with the 'Active Carrot' tab selected. The 'SMTP Settings' section is highlighted with a red box. The settings are as follows:

Setting	Value
SMTP Enabled	<input checked="" type="checkbox"/>
SMTP Username	1
SMTP Password	*****
SMTP Server	MAIL.SMTP
SMTP Port	123
SMTP Use SSL	<input checked="" type="checkbox"/>

Other visible settings in the 'Active Carrot Settings' section include:

- Enable e-blast:
- Enable Active Carrot:
- Active Carrot Site Id: 1
- Active Carrot Key: *
- Staff Code: 154
- AA, TEACHER
- Select Access Point: Online Access Point: KIOSK
